

# 2021 MONTANA STATE LEGISLATURE FINAL REPORT

The 2021 legislative session adjourned on Thursday, April 29, 2021. The League tracked and actively lobbied more than 200 bills that affected Montana municipalities.

This legislative session saw an all-out attack on local government authority. In addition to new restrictions on tax increment financing, land use and planning authority, gun regulation, inclusionary housing, local option gas tax, and special district financing, the session ended with a proposal to prohibit local government associations from lobbying. Working together through our strategic public and private sector partnerships, local elected officials, and municipal staff, we were able to stop this idea and other proposals damaging to local government.

SB 0385	Revise special district laws and provide time limit on property tax levies	Greg Hertz	Chapter Number Assigned

**Staff Summary:** This bill proposed to limit all new local government voted mill levies under 15-10-425 to 10 years duration (except libraries, levies to secure bonds, and certain school mill levies) and removed the authority of local governments to create new special purpose districts under the consolidated special district statute by resolution. As amended with the changes worked on for SB 77, the bill creates two types of special purpose districts under the consolidated special districts law. The first type would allow for the creation of a district by protest only, which could grow only at the rate of inflation annually and would sunset after 13 years or whenever bond indebtedness was paid (this provision also applies to existing districts not created with voter approval). The second type would allow for the creation of a district by voter approval, which could grow at whatever increase or total cost the voters approve and last for as long as the voters allow.

HB 0002	General Appropriations Act	Llew Jones	Chapter Number Assigned		
Staff Summary: HB 2 contains most appropriations for state agencies and their programs. The sections of the bill are handled by various joint					
subcommittees during the first half of the session, which then make recommendations to House Appropriations for approval. The final version of HB 2					
must be a	must be approved by both houses of the Legislature.				

HB 0003 Supplemental Appropriations Bill	David Bedey	Chapter Number Assigned			
Staff Summary: HB 3 (Supplemental Appropriations) contains requests for additional cu	rrent biennium funds that	have already been spent by a state			
agency or are anticipated to be spent by a state agency prior to the end of the current fi	cal biennium. HB 3 for the	e 2021 session contains the following			
supplemental appropriations:1) A \$4.5 million general fund appropriation for OPI BASE a	id as a result of a \$3.5 mil	lion shortfall in the state special			
revenue guarantee account in FY 2020 and an anticipated \$5.3 million shortfall in that a	revenue guarantee account in FY 2020 and an anticipated \$5.3 million shortfall in that account in FY 2021. Changes in student counts, taxable value				
changes, non levy revenue changes increasing guaranteed tax base aid (GTB), higher reti	rement budgets, and othe	r school funding formula component			
payment adjustments also contribute to the need for additional funding. 2. A \$13.8M ap	propriation for DOR Alcoh	olic Beverage Control Division for			
litigation and to allow for purchase and transport liquor as well as make necessary trans	ers of excess profits to the	e general fund. The need for			
increased authority comes from alcohol sales above anticipated levels in FY 2021. 3. A \$	7M appropriation from th	e CARES Act to the Governor's Office			
for the Governor's Education Relief Fund. 4. A \$17M appropriation from the CARES Act	o Commerce for emergen	cy rental assistance.5. Three			
appropriations from CARES Act to DPHHS for COVID-related needs: \$37.8M for vaccines;	\$192M for testing, tracing	g, and mitigation; and \$29M for child			
care and development. 6. A \$650,000 appropriation from the CARES Act to OBPP for FEN	IA matches on behalf of N	1ilitary Affairs.			

HB 0023	Revise tax lien and tax deed process	Becky Beard	Chapter Number Assigned
Staff Sun	nmary: This bill increases the notice requirements for tax deed sales, especially f	for owner-occupied dwel	ling units, and distributes proceeds

from a tax deed sale to the title holder.

HB 0050	Redistribute 9-1-1 funding to state library	Frank Garner	Chapter Number Assigned	
Staff Summary: This bill redistributes \$450,000 annually from the 9-1-1 fees collected by the state to the Montana State Library to support the				
creation, maintenance, and dissemination of address points, jurisdictional boundaries, and road data required for Next Generation 9-1-1 (NG911)				
systems. While the appropriation reduces the funds available for grants to local governments, it will fund a software or application system for use by all				
public safe	ety answering points (PSAPs) in the state to access GIS land information.			

HB 0072	Revise funding for highway patrol retirement system HPORS	Frank Garner	Chapter Number Assigned		
Staff Sum	Staff Summary: This bill redirects some funding from the state special revenue account that partially pays for highway patrol officer salaries to the				
highway p	atrol officers' retirement pension fund, dropping the amortization period from 3	39 to 28 years.			

HB 0081	Generally revise laws on administration of MPERA retirement systems	Jim Hamilton	Chapter Number Assigned		
Staff Summary: This is a general revisions bill requested by MPERA Board to reflect federal law updates, court rulings, current practices, and efficiency					
improver	nents in administration of the retirement system. No fiscal impact on the fund.				

HB 0159Revise governor's power to spend certain unanticipated federal fundsLlew JonesChapter Number AssignedStaff Summary:This bill would allow the legislature to reject automatic appropriation authority for federal funds to local governments. Right now,President-elect Biden's proposal is \$350 billion to be distributed directly to local governments via the CDBG distribution. That would mean Missoula,GF, and Billings would get their allocations directly from the feds; all other counties and cities would receive their distribution from the state according to population and could be held up by the language of this bill. Does the bill need an exemption for monies that are earmarked for local government distribution?

SB 0035	Repeal expired property tax exemption for electrical generation facilities	Brian Hoven	Chapter Number Assigned
SB 0051	Exempting certain fiber optic, coaxial cable from property taxation	Jason Ellsworth	Chapter Number Assigned

**Staff Summary:** This bill exempts fiber optic or coaxial cable, including all capitalized costs associated with construction and deployment of the cable, and other property that is normally operated in the installation and deployment of such cable, from taxation during installation and for a period of 5 years starting from the date of deployment. After 5 years, the exemption would have been phased out at 20% per year to full taxation after 10 years. To obtain the tax exemption, the company must reinvest the tax savings from the exemption in the installation of new fiber optic or coaxial cable in Montana within 2 years following the tax year in which the tax savings are received by the owner of fiber optic or coaxial cable without charging the costs to the consumer. A similar bill (SB 239) was vetoed by Governor in the 2019 session. The League proposed amendments to the bill that would require the department to provide notice to the local government for review and comment of the claim before exempting the property from taxation under this provision. The League dropped its opposition to the bill after these amendments were made.

SB 0191	Generally revise state finance laws	Ryan Osmundson	Chapter Number Assigned
SB 0212	Revise laws related to property tax bills	Ryan Osmundson	Chapter Number Assigned

**Staff Summary:** This bill requires reappraisal notices to contain the following additional disclosures: consumer price index adjusted for population; average annual growth rate of Montana personal income; change in property taxes levied over the previous 10 years by the state, the county, any incorporated cities or towns within the county, and local school average mills by county. The bill requires tax bills to itemize the total taxes due by mill levy, and identify those that are voted mill levies. Once the bill was changed to add school district information the League removed its opposition to the bill.

SB 0174 Revise laws related to local subdivision review

Chapter Number Assigned

Greg Hertz Staff Summary: This bill adds limitations on the ability to condition a subdivision. It limits to conditions to those with a defined purpose or objective that must be identified specifically, documented, clearly defined, and limited to the 76-3-608(3)(a) criteria. Governing body cannot have review or approval authority over a homeowner's association governing documents or amendments thereto "unless directly and materially impact a condition of subdivision approval." Provides that if a local government choses not to enforce a condition in the subdivision, it waives its right to enforce it against any other similarly situated landowner in the subdivision.

HB 0701	Generally revise marijuana laws	Mike Hopkins	Chapter Number Assigned

**Staff Summary:** Under I-190, possession of recreational marijuana became lawful as of January 1, 2021. HB 701 moved the date for beginning sales of recreational marijuana to January 1, 2022. From January 1, 2022 to June 30, 2023, only medical marijuana providers existing and licensed/applied as of November 3, 2020 may sell recreational marijuana in counties where majority of voters approved I-190. Beginning July 1, 2023, new providers may apply to sell adult-use marijuana. Under HB 701, adult-use marijuana sales will not be allowed in a county where I-190 did not pass unless residents of a local jurisdiction (county or municipality) petition and vote to allow it. In counties where I-190 passed, a local government may regulate marijuana business within it's jurisdictional area, including but not limited to inspections of licensed premises and testing laboratories in order to ensure compliance with any public health, safety, and welfare requirements established by the department or the local government. HB 701 removed I-190 language that local governments could not adopt regulations that were "unduly burdensome" and the absolute prohibition on prohibiting any marijuana businesses. HB 701 also provides the following specific regulations:

- Local governments cannot prohibit the transportation of marijuana within or through its jurisdiction on public roads by any person licensed to do so by the department.

- Local governments cannot reduce the statutory 500-foot spacing between a marijuana business and a place of worship or a school.

- Local governments cannot impose new regulations on an existing medical marijuana provider that does not apply for licensure as an adult-use

provider until it's first license renewal date occurring after January 1, 2022 or the expiration of any grace period granted by the locality.

- Marijuana businesses cannot advertise in any medium.

- DOR may impose more state-level requirements through rulemaking.

- Applicants for a marijuana business license must demonstrate to DOR that they are in compliance with local zoning regulations, and a certified copy of those regulations must be provided to DOR.
